UL300 mass spectro meter leakdetector

MAKING INTERVENTION
SMARTER

UL300 Mass Spectrometer Leak Detector

APPLICATIONS

- Gross Leak: 20,000Scf/min
- Minimum detectable He leak: 5×10^{-7}
- Clean up time: Instant
- Requires Vacuum pump
- Easily calibrated to system percentage
- Accuracy: 1Scf / 100yr

FEATURES

- Used for detecting Helium leaks on systems
- Requires to be run in a pressurised cabin

BENEFITS

- Certified to 89/392/EEC
- Certified to 89/336/EEC
- Certified to 73/023/EEC

Weight Data

Gross Weight 22kg

Dimensions

Length 990mm

Width 750mm

Height 600mm
