Nitrogen dewars

MAKING INTERVENTION
SMARTER

Mobile liquid nitrogen storage / transportation tanks

APPLICATIONS

- Intended for transportation and storage of liquid nitrogen @ -1960C

FEATURES

- Intended for transportation and storage of liquid nitrogen @ -1960C
Super insulation under vacuum, relief valve safety system fitted
- 200 litres of liquid nitrogen
- 1/2" BSPP female
- Design pressure: 4.5 barg
- Operating pressure: 3.5 barg

BENEFITS

- Certified to allow to duty holder to demonstrate compliance with the requirements of SI 913
- Lifting certification in accordance with DNV 2.7-4

Weight Data

Tare Weight 151kg

Gross Weight 302kg

Dimensions

Width 640mm

Height 1500mm
